

DESCRIPTIONS

The BMWS-L-D-5BT-BLE-KL is a battery powered wall switch with a long battery life of over 3 years. The switch can be wall mounted in a standard switch device box or used as a remote control.

FEATURES

- Bluetooth network technology enables the switch to link to one or more BlueMesh Light Groups via BlueMesh App.
- Powered by readily available and inexpensive 3V CR2032 battery.
- 3 scenes rotation controlled by scene button.
- Push Auto button to go back to Automatic mode.
- When the battery power is low, pressing any button will cause the LED indicator to flash red.
- Easily retrofit existing wall switches by WP kits.
- No wiring required.
