

## PRODUCT DESCRIPTION

The BMS-S15P-PIR-DC2-BLE-SR is a compact Bluetooth® mesh PIR occupancy sensor designed for high-efficiency lighting control. It supports daylight harvesting, zoning, and continuous 0–10V bi-level dimming, enabling wireless group control via mobile app. With a 360° detection range, up to 13ft mounting height, and built-in antenna, it offers reliable performance in various environments.

## ORDERING INFORMATION

### Description

0–10V Wireless PIR Motion Sensor

### Part Number

BMS-S15P-PIR-DC2-BLE-SR

## TECHNICAL DATA

Sensor Type	Passive infrared sensor
Input Voltage	10–14VDC, >50mA
Signal Output	0–10V, max 25mA sinking current
Protocol	Bluetooth® SIG mesh
Mounting Height	13ft(4m) max.
Max Bluetooth Range	100ft(30m)
Detection Angle	360°
Operating Temperature	-4°F to 140°F(-20°C to 60°C)
Certification	FCC certified
Connector Type	Low-voltage connector
Antenna	Onboard

## FEATURES

- PIR motion detection with 360° coverage.
- Supports daylight harvesting, zoning, high-end trim, and bi-level dimming.
- Onboard antenna, LED motion indicator, and reset via button or remote command.
- All 0–10V devices on the line are broadcast-controlled via mobile app.

### Smart Connectivity

The Bluetooth mesh network extends control range by relaying signals between devices, enabling broader coverage. Bluetooth® SIG mesh enables wireless 0–10V dimming, zoning, and broadcast control via mobile app.

### Energy-Efficient Dimming

Supports daylight harvesting, bi-level dimming, and high-end trim to reduce energy use in indoor environments.

### Precise Detection

360° PIR sensing with mounting height up to 13ft ensures accurate occupancy detection in various spaces.

### Easy Integration

Low-voltage sensor with onboard antenna, mobile reset, and standard connector simplifies deployment.

The system supports both local and remote reset methods.

Local reset: press the button of the sensor for 5 seconds.

Remote: press "RESET"+" ON/OFF" buttons in sequence.

### Reliable Performance

Offers stable Bluetooth range up to 100 ft and backed by a 5-year warranty. Actual performance varies based on installation factors.
